

# Edwards Matthews

Engineering Consultants

This organisation is committed to providing the highest quality of service and product to its customers, maintaining sound economic practice that will ensure client satisfaction and the Company's leadership in its field.

Our services must meet the needs of our customers, Quality of service within the Business is considered the responsibility of each and every person involved with the Business.

Our goal is to get things right first time and every time, within an environment where all are actively involved in continuing improvement through the regular and systematic review of our systems.

The Quality Management System is developed in compliance with ISO 9001-2015 in addition to other regulations and legislation affecting the Business.

The Company operates in compliance with the relevant British, EU and International Standards.

Signed

Managng Director - Paul O'Connor
